LINK THUMBNAILS TO FULL-SIZED VERSION OF IMAGES - Aug 3rd, 2010

By default, this is the code used to generate the image tags for thumbnails is:

```
<?PHP if ($upload['hasThumbnail']): ?>
    " height="<?
PHP
echo $upload['thumbHeight'] ?>" alt="" /><br />
```

If you want your thumbnails to link to the full-sized version of the image, you can substitute that code with this:

```
<?PHP if ($upload['hasThumbnail']): ?>
    <a href="<?PHP echo $upload['urlPath'] ?>">" height="<?PHP echo $upload['thumbHeight'] ?>" alt="" /></a><br />
```
