PUTTING FIELDS AND EVENT LISTINGS IN A LOGICAL ORDER - Jun 7th, 2015

As in the "About Us" example, you can click on one of the up/down arrows in the "Drag" column and drag any field up or down in the list to where you want it to appear. Also, if you want to change the order that events appear on your events listing page, you can drag them in the events list to rearrange them.
