CREATING AN "EVENTS" PAGE WITH A MULTI RECORD SECTION EDITOR - Jun 7th, 2015

This page utilizes a multi record section editor to manage it's content.

In your "Events" section editor, you'll want to be able to enter a thumbnail image, a title, some dates and times, and a brief description for each event.

On your "Events" listing web page, you'll want surfers to be able to click on one of the event listings and be taken to that event's "detail" page which displays the event title, the event date and times, and much more detail about that event.

The materials on this web site have been created for use with CMS Builder content management software. CMS Builder software is published and licensed for use by InteractiveTools.com. Please contact Interactive Tools for information on the downloading of the software or the purchasing of licenses.
