## SELECT MULTIPLE RECORDS AND DRAG PLUGIN - Aug 8th, 2023

Steve99 has generously created and shared a plugin that allows you to select multiple records in a manually sorted (dragSortOrder) multi record section and drag them to a new position in the record list.

Note: This plugin has not been tested with Category type and has built-in checks to not enable for these sections.

You can download a copy of this plugin from here: [http://thecmsbcookbook.com/downloads/moveRecordsHere\\_1-00.zip](http://thecmsbcookbook.com/downloads/moveRecordsHere_1-00.zip)

and here's the original post on the forum: <https://www.interactivetools.com/forum/forum-posts.php?82694>

The materials on this web site have been created for use with CMS Builder content management software. CMS Builder software is published and licensed for use by InteractiveTools.com.
